

FARMERS LOOK UP

Advice of Gov. Bell in Addressing
Pomona Grange Meeting in
Stowe.

SPOKE TO SCHOOL CHILDREN

Tells Them to Try and Make Their Own
Places—The Governor and Staff
Left the Village to Spend Night
on Mt. Mansfield—The
Grange Programme.

Stowe, Oct. 11.—A perfect autumn day, with clear skies and bracing air helped to make the occasion of Governor Bell's visit to Stowe a most enjoyable one. The party arrived on a special car from Waterbury. They were met by members of the Harmony Pomona Grange, under whose auspices the governor's visit was arranged, and were escorted to Akoley Memorial hall, where they were made at home. The party consisted of Governor and Mrs. Bell, the Misses Adine M. and Jennie Bell, General Putnam, General Williams and daughter, Colonel and Mrs. Billings, Colonel and Mrs. Roberts, Colonel and Mrs. Wells and Colonel and Mrs. Scarff.

Tables were laid for 100 people in the banquet hall and a bountiful dinner was served to the governor's party, invited guests and members of the grange. About 50 were served at the second tables. Among the invited guests were the Rev. and Mrs. J. Q. Angell, C. H. and the Rev. F. M. H. Abbott, the Rev. H. A. G. Abbe, Mr. and Mrs. A. H. Cheney and Editor E. L. Lewis of Morrisville.

After dinner the pupils of the high and graded schools marched to the front of Akoley Memorial hall where the governor made a short address to them. The governor advised the pupils to learn to make their own places. The fact that children on the farm have to be doing something is one reason why they amount to something afterward. Be loyal to yourselves, town, State and flag. The governor's remarks were heartily cheered.

The company then adjourned to the auditorium for the afternoon exercises to which the public were invited. The governor's party occupied the stage. The officers' chairs were filled as follows: Pomona Grange master, G. H. Chapin; secretary, F. M. Small, Morrisville; lecturer, Mrs. C. F. Smith, Morrisville; steward, W. M. Alger, treasurer, C. F. Smith; gatekeeper, H. G. Foster. The stage was decorated with potted plants and autumn flowers.

The following programme in charge of Mrs. Smith was carried out: Singing by choir; address of welcome by G. H. Chapin, master; response by Mrs. Smith, lecturer, who complimented the beautiful building in which the meeting was held, and told of the growth of the Grange in Vermont, of which the governor has been State master; singing by choir; reading by Miss Carrie Chase of Morrisville, "How to Keep House" by E. M. Small, "How to Run a Farm" by Mrs. Levi Gile of Morrisville. Governor Bell spoke and said among other things that farmers make a mistake in calling themselves poor, that in Vermont farmers have much to enjoy that money cannot purchase, that farmers should talk up their business instead of deprecating it. Let our children not be urged to fast at school, but be allowed to learn something else at the same time.

General Williams said that the strength of Vermont is in its people and as long as its people consult God as to their course their prosperity is assured. There were remarks by General Putnam, Colonel Roberts, Colonel Dohm, Colonel Scarff, who gave an original poem on Mount Mansfield, and Colonel Billings. The governor's party left at 3 p. m. and were joined by Secretary of Civil and Military Affairs C. T. Walter and Mrs. Walter and all took carriage for Mount Mansfield, where they spent the night, leaving on Friday for their homes, after which the Grange programme was concluded by discussions and readings.

SUNDAY SCHOOL OFFICERS.

County Election in Rutland Thursday—Resolutions Adopted.

Rutland, Oct. 11.—The annual convention of the Rutland County Sunday School association, which opened at the local Methodist Church yesterday, was brought to a close this morning. The general subject for the morning session was "The New Year." The Rev. H. M. Douglas of West Haven gave an address on "Pleasure and Profit in Bible Study." Officers were elected as follows: W. P. Carey of Wallingford, president; L. H. Cook of Danby, vice-president; Mrs. C. N. Batchelder of Wallingford, superintendent of the home department; Mrs.

IN BURLINGTON.

Every Claim Is Backed By Local Testimony.

If the reader wants stronger proof than the following statement and experience of a resident of Burlington what can it be? Walter H. Spear, painter and decorator, of 102 Hyde street, an old resident, says: "I obtained a box of Doan's Kidney Pills from W. J. Henderson & Co., when I needed some very badly. A dull aching pain seated itself deeply in my joints. If there was ever any particular period in the day when it left me entirely I can't remember it. I was almost doubled up with the pain and often had to rub my back with my hands to get some ease. If I attempted to lift anything afar from the back reminder caught me in the back and I was in a pretty serious condition. After I underwent the course of treatment prescribed by Doan's Kidney Pills I had not a recurrence of the trouble and I feel satisfied I have at last found something I can depend upon if any future attacks threaten."

For sale by all druggists, price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, DOAN'S, and take no other.

Soda Crackers and—

anything you choose—milk for instance or alone

At every meal or for a munch between meals, when you feel the need of an appetizing bite to fill up a vacant corner, in the morning when you wake hungry, or at night just before going to bed. Soda crackers are so light and easily digested that they make a perfect food at times when you could not think of eating anything else.

But as in all other things, there is a difference in soda crackers, the superlative being

Unedea Biscuit

a soda cracker so scientifically baked that all the nutritive qualities of the wheat are retained and developed—a soda cracker in which all the original goodness is preserved for you.

NATIONAL BISCUIT COMPANY

5c

John I. Fennet of Castleton, superintendent of teachers' training; W. B. Clouston of Rutland, State director. The convention adopted resolutions protesting against the breaking of the Sabbath by games and Sunday excursions, urging the superintendents to give the system of grading the Sunday schools a thorough trial, recommending that teachers be trained in every school, urging Sunday school workers to use every effort to bring about absolute prohibition in every town and thanking the Methodist people for their hospitality.

Plans To Get Rich. are often frustrated by sudden breakdown, due to dyspepsia or constipation. Brace up and take Dr. King's New Life Pills. They take out the materials which are clogging your energies, and give you a new start. Cure headache and dizziness too. At J. W. O'Sullivan's drug store, 25c guaranteed. All druggists.

FISH SEINERS FINED

Must Pay \$100 Each—One of the Proprietors of the Bardwell House Arrested for Selling Liquor.

Rutland, Oct. 4 Robert Eddy of Wallingford, who pleaded not guilty to charges of burglary and assault with intent to commit rape before the county court, last Monday changed his plea to the latter charge today to guilty of assault and was sentenced to serve from two and half to three years in the house of correction. The burglary case was continued. Eddy has served a term in the State Industrial school for tampering with a switch at Wallingford and has also been convicted of burglary.

The jury in the case of the State vs. Stephen and Charles Marshall of Wells, charged with selling fish at Lake St. Catherine returned a verdict of guilty and the men were fined \$100 each with costs. They were committed to jail until they settle.

The jury in the breach of peace of the peace case against Charles Minogue of Castleton, who had the case under consideration for about 24 hours, today reported a disagreement and they were discharged. The case of the State against T. A. Clifford, charged with selling liquor contrary to the provisions of his druggist's license was tried today to two witnesses testifying that they had procured beer at his store without a prescription. Judge Watson, however directed the jury to return a verdict of not guilty which they did.

P. W. Lalor, one of the proprietors of the Bardwell House was arrested today on an information charging him with selling liquor on September 14, one of the days of the county fair, without a license. He furnished bail in \$600. Several other liquor cases were continued.

DENTAL ASSOCIATION MEETS

Only Small Per Cent of Dentists Belong to the Organization.

Rutland, Oct. 4.—Although a majority of the members were yet to arrive the Northeastern Dental society began its 11th annual convention at Baxter hall this morning, the first session being of a purely business nature, consisting mainly of the reading of reports. It was not until 2:45 o'clock this afternoon that the real opening took place. The session was opened by Dr. Thomas Mound of this city, president of the association. After welcoming the members to this city, he turned his attention to the professional viewpoint and spoke of the requirements necessary to become a successful dentist. Concerning the society he said that while there are 5,033 dentists in New England only 71.3 per cent, belong to the Northeastern society. He urged all members to do their utmost to increase the membership in order that the usefulness of the association may be more far-reaching.

Dr. Sinclair Tousey of New York read a paper on "The Use of the X-ray and High Frequency Currents in Dentistry." "Am I My Brother's Keeper" was the subject of a paper by Dr. Martin C. Tracy of New York, the discussion being opened by Dr. James E. Power of Providence. In the evening Dr. Norman G. Roach of Boston gave "A Report of Cases in Orthodontia," illustrated by stereopticon views. The session closed with a lantern exhibition of skiagraphs showing pathological conditions by Dr. M. J. Schanberg of Philadelphia.

A feature of to-morrow's programme will be a trip in the afternoon to the Proctor marble quarries and mills by special train.

IMPROVEMENT IN DENTISTRY

Latest Methods Illustrated at Convention of Northeastern Dental Association—Some Social Pleasures.

Rutland, Oct. 4.—The second day of the 11th annual convention of the Northeastern Dental society has been a busy and successful one. The morning session was entirely taken up with clinics, which were unusually good. This afternoon the members and visitors went to Proctor in a special train chartered for the occasion and visited the extensive quarries and mills of the Vermont Marble company. After an interesting session this evening ladies' night was observed at Dunn hall, a musical and literary programme being provided, after which their was dancing.

DENTAL CLINICS.

The entire morning was devoted to clinics which were 32 in number. The subjects had all been carefully chosen and the clinics were presented in a very interesting and instructive manner.

Recent extensive progress in electrical apparatus for preparing porcelain for use in dentistry was demonstrated in various ways. Fillings of porcelain were made for patients procured here in the city and the use of this material in crown or prosthetic dentistry was also demonstrated. Various improved methods of filling with gold were shown in operations on patients.

The practical application of the X-ray coil and tube for examination and the diagnosis of disease and treatment of the same was amply demonstrated by Dr. Sinclair Tousey of New York. A special X-ray apparatus for use in treatment of the diseases with which the dentist comes in contact in his work upon the old cavity, has been designed by Dr. Tousey, including an X-ray tube to be used within the mouth. Also a dental fluoroscope and a film carrier and indicator of special design for X-ray examinations of the teeth and adjacent tissues.

Demonstrations of the X-ray in diagnosis of disease were made upon patients brought in by local physicians. Unique and effective appliances for the retention of teeth that have become loose from disease, the restoration of considerable parts of teeth; the scientific and complete cleaning of teeth; the restoration of parts of interior teeth without the display of gold or in any way indicating defect and the performance of operations upon the nerves of the teeth were demonstrated by various dentists.

POOR DENTISTRY ABROAD.

To-night's session was one of the most interesting of the meeting. Dr. James C. Monaghan of Washington, chief of the department of commerce and labor, and for 12 years United States consul to Germany gave an intensely interesting address on "American Dentistry Abroad." He said that all the university cities of the German Empire are filled with students from foreign countries who come from all over the world to sit at the feet of the great German masters. Germany itself is a physically poor nation, but in spite of this they lead the world in scientific achievements. They have accomplished this by the application of the theoretical to the practical. Coming to this subject Dr. Morgan said: "There is one scientific branch in which the Germans do not excel and that is your profession, gentlemen. Of the great European dentists nearly all have been Americans. I would, however, advise every American dentist to stay in this country, for while American dentists are so much desired in Europe that it has let many young Germans and Frenchmen come here to study. Laws have been enacted in France and Germany that no American dentists can practice there unless he hold a certificate of a specified amount of study done in European dental schools."

Dr. Monaghan was proclaimed by a rising vote to be the best speaker that ever appeared before the association.

OFFICERS ELECTED.

Officers were elected as follows: Thomas

J. Barrett of Worcester, president; James E. Power of Providence, first vice-president; Edward B. Guthrie of Bridgeport, second vice-president; Edgar O. Kinsman of Cambridge, Mass., secretary; receded; Charles H. Riggs of Hartford, assistant librarian; assistant secretary, Charles E. Prebble of Forest Hills, Mass.; treasurer, F. T. Murbless, Jr., of Windsor Locks, Conn.; librarian; David Manson of Burlington, editor.

The next convention will probably be held at Worcester.

Recuperative Effect.

Considered with reference to its recuperative effect, there is not so much good in the ordinary vacation as there is in a single bottle of Hood's Sarsaparilla. The latter costs 41c; the former—well that depends; how much did yours cost last year?

Hood's Sarsaparilla refreshes the tired blood, sharpens the dulled appetite, restores the lost courage.

RUTLAND COUNTY MEETING.

Sunday School Topics Discussed by Practical Workers.

Rutland, Oct. 4.—Nearly 100 delegates were present at the annual convention of the Rutland County Sunday School association, which opened today at the local Methodist Church. The general theme for the morning session was, "The Pastor and the Sunday School," addresses being given by the Rev. C. H. Smith of Pittsford and W. E. Chason of Rutland. The general topic for the afternoon session was "The Sunday School Viewed Educationally." Miss Mabel E. Carpenter of this city conducted a conference of primary and junior schools and the Rev. E. M. Fuller of Burlington, field secretary. The Rev. R. J. Burton of Greensboro spoke on "Teachers' Training" and the Rev. Mr. Fuller gave an address on "Through the Right End of the Telescope."

This evening the Rev. Mr. Fuller spoke on the subject "Sunday School Extension." The Rev. Dr. G. W. Woodell of Pittsford gave a report on the International Sunday school convention held at Toronto. The report was illustrated with many views of the city. The convention closed to-morrow morning.

If the Baby Is Cutting Teeth.

Be sure and use that old and well-tried remedy for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for Diarrhoea. Twenty-five cents a bottle.

BOY SELLING LIQUOR.

Arthur Foster of Fairfax Arrested on That Charge.

St. Albans, Oct. 4.—Roscoe Curley of Fairfax, who is but 22 years old, but a well known figure in the police courts, was today arrested at his home and arraigned before Justice Luther B. Hunt charged with a third offense of intoxication. Curley, who was prosecuted by Attorney J. G. Keenan of this city, was convicted and fined \$5 and costs. He appealed and furnished bail.

In his disclosure as to where he got his liquor, Curley implicated Arthur Foster, a boy of 17, who it appears, has been sending out to St. Albans and getting liquor shipped by express. Foster was arrested, charged with furnishing liquor, had his examination and in default of \$500 bonds, was brought out to the county jail and locked up. It is expected that a hearing in his case will be held Thursday.

SENATE OFFICE BUILDING.

Lowest Bid for the Marble Made by Vermont Marble Co.

Washington, Oct. 5.—The lowest bid on marble for the United States Senate office building was that of the Vermont Marble company, Proctor, Vt., \$108,000. The commission in charge of the work meets on Saturday.

ABOVE THE SEERING LINE.

He-Did you get a good view from the top of the mountain? She-No, we could see nothing at all. We were 4,000 feet above sea level, you know.—Yonkers Statesman.

Never Wear A Truss That Does Not Fit

A poorly fitting truss may do much harm instead of good and will certainly cause discomfort and annoyance. Long experience has made us expert truss fitters. If you wish a truss which will fit perfectly, hold the rupture safely and be comfortable then let us do the fitting. We have all the different kinds at the very lowest prices.

CHURCHILL'S PHARMACY, 95 Church St.

GIRL MURDERED

Young Physician of Chicago Is Suspected of Having Mal-treated Her.

HAIR TORN FROM HER HEAD

Evidence of a Terrible Struggle—Had Been Locked in a Room with the Doctor for Hours—Believed He Poisoned Her to Cover Crime—Took Big Dose Morphine.

Chicago, Oct. 4.—Dr. Oliver B. Hart, a young physician residing in Rogers Park, is under arrest pending further investigation of the death of Irene Klokow 19 years old. It is the opinion of the police that a charge of murder will be lodged against Dr. Hart. The girl died yesterday in a bedroom at the Hart residence in which she and the physician had been locked for several hours. It is the opinion of the authorities based on the facts disclosed at the inquest held today that the girl was maltreated and then poisoned in an attempt to conceal the crime. After finding that it was impossible for the child to recover the physician swallow morphine and lay unconscious all of last night and during the greater part of today. Late this afternoon he partially recovered and was brought here and locked up.

The girl was taken about a year ago from the Illinois Industrial Home for Girls by Dr. Hart and his wife, who desired a girl to do light house work. Yesterday two sisters of Irene Klokow called at the Hart residence and in company with Mrs. Hart went on a shopping expedition to the city. Irene complained of a headache and was left alone in the house with the physician. What happened in the house is not known but the first intimation that anything was wrong was a telephone message sent by Dr. Hart to a neighbor, Mrs. Richard Cortis. Dr. Hart told the woman to summon help at once as he was dying. Mrs. Cortis sent word to a physician and then ran to the Hart residence. She let her little daughter climb through a cellar window and unlock the front door. After entering she called to Dr. Hart and he shouted from the floor above: "Here I am; you will have to break through another door." Mrs. Cortis threw her weight against the bed-room door and broke it open.

The Klokow girl was lying on the bed partially dressed, her hair disarranged and much of it torn from her head and the room showing evidence of a desperate struggle. The girl was unconscious and evidently dying, and Dr. Hart informed Mrs. Cortis that she had swallowed morphine pills, after he had given her some medicine. Just at this point Mrs. Hart returned from her shopping expedition and the physician summoned by Mrs. Cortis arrived. Dr. Hart repeated to them the story he had told to Mrs. Cortis and when Dr. Hulstrom went to work over the body of the girl, Dr. Hart went into an adjoining room and swallowed a large quantity of morphine. Efforts to revive the girl were unavailing and she died in a short time. Dr. Hart has resided in Chicago but a short time and is the son of a millionaire of St. Louis, who has sent him regularly an allowance of money which has supported him and his wife. Dr. Lewke, the coroner's physician, who examined the body of the girl declared to-night that she had been treated in a revolting manner.

YOUNG GIRL MURDERED

Body Found in Farm House Cellar—Her Mother Found in the Barn Severely Wounded—Her Employers Missing.

Middletown, Oct. 4.—Alice Ingerick, nine years old, was found murdered in the cellar of what is known as the Olney farm house near here to-night. Her mother, Mrs. Georgia Ingerick, was later discovered in the Olney farm house barn, suffering from severe wounds about the head. The woman kept house for Willis and Fred Olney, two aged brothers. Search is being made for a jelly probably with the piece of gas pipe which was found in the kitchen. It is feared that Mrs. Ingerick will die from her wounds. The woman, who was engaged as a housekeeper for the farmers has a husband, Daniel Ingerick residing at Wurtsboro, Sullivan county, but they have been separated for three years. One theory is that Mrs. Ingerick and the Olney brothers quarrelled previous to the crime, which is supposed to have occurred about noon as the family were evidently at dinner when the interruption occurred.

The murder was discovered by Lulu Ingerick, the 13-year-old sister of the murdered girl, who went to the house in company with neighbors after she had previously called and failed to find her mother. A. J. Zerk, now of Boston for \$50,000 in an action of contract under the national bank act. He seeks to recover the assessment upon the stock of the bank owned by the president, levied by Comptroller Ridgely. Ferris is alleged to have caused the bank's suspension by his improvement loans. He is now a physical wreck and confined to his home in Dorchester. The case is returnable here in the October term.

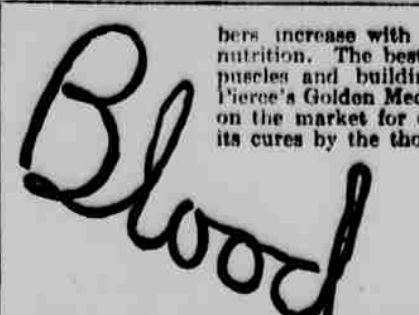

Everybody's liable to itching piles. Rich and poor, old and young—terrible the torture they suffer. Only one sure cure. Doan's Ointment. Absolutely safe; can't fail.

SUIT AGAINST FERRIS.

Receiver F. L. Fish Seeks to Recover \$50,000 for Swanton National Bank.

Boston, Oct. 4.—F. D. Allen, a Boston attorney, retained by United States Comptroller Ridgely to act for Receiver F. L. Fish of the People's bank of Swanton, Vt., has brought a suit here against President A. J. Zerk, now of Boston for \$50,000 in an action of contract under the national bank act. He seeks to recover the assessment upon the stock of the bank owned by the president, levied by Comptroller Ridgely. Ferris is alleged to have caused the bank's suspension by his improvement loans. He is now a physical wreck and confined to his home in Dorchester. The case is returnable here in the October term.

Everybody's liable to itching piles. Rich and poor, old and young—terrible the torture they suffer. Only one sure cure. Doan's Ointment. Absolutely safe; can't fail.

Blood

THOMAS A. EDISON, the inventor, in mapping out the problem of the future, gives first place to the necessity of fighting the bacteria which give us our diseases. Next to the actual bacteria of disease, the mosquitoes and flies are the most dangerous enemies of man. The mosquito with its bite injects into our veins malaria, yellow fever, and other fatal troubles. The fly, with its spongy feet, collects the invisible germs of disease, spreads them over our food and poisons us with typhoid, cholera and other plagues of the human race.

GOOD RED BLOOD OUR AMMUNITION. The blood which flows through our veins and arteries should contain healthy red blood corpuscles which are capable of warding off the attack of the disease germs if they get into the system.

Dr. Pierce, the eminent physician of Buffalo, N. Y., says, "If each person will consider his system as an army of men which he controls as a general, and will see to its proper provisioning and that it has plenty of ammunition in the shape of good red blood, he will be able to overcome the enemy in the shape of the germs of disease." Every healthy person has five million red blood cells or corpuscles to every square millimeter of blood. The number of red blood corpuscles in the average human being is so great that it is almost incomprehensible. However, their num-

bers increase with health or decrease with illness or malnutrition. The best tonic for increasing the red blood corpuscles and building up healthy tissue is no doubt Dr. Pierce's Golden Medical Discovery. This medicine has been on the market for over a third of a century and numbers its cures by the thousands.

A tonic made up largely of alcohol will shrink the corpuscles of the blood and make them weaker for resistance. A cod liver oil makes the stomach grow because it is irritating. What is needed is an alternative extract made of roots and herbs, without the use of alcohol, that will assist the stomach in assimilating or taking up from the food such elements as are required for the blood, also an alternative that will assist the activity of the liver and cause it to throw off the poisons in the blood. When we have accomplished this we have put the system in a fortified condition so strong that it can repel the germs of disease which we find everywhere—in the street-cars, the shops, the factories, the bedrooms, wherever many people congregate, or where sunlight and good air does not penetrate.

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach, blood and lungs.

Dr. R. V. Pierce, Buffalo, N. Y. Dr. R. V. Pierce's Golden Medical Discovery is a sick man's friend. I lost my appetite, became nervous and debilitated, very dependent and unable to sleep. To medicine helped me until I tried Dr. Pierce's Golden Medical Discovery. It put new life into my veins and increased vitality until I could once more enjoy life and attend to my business. Eight bottles effected a complete cure and gladly do I recommend it. Very sincerely yours, J. E. T. TRAVEL.

2209 California St., Denver, Colo. Dr. R. V. Pierce's Golden Medical Discovery.

The bible of the body is the name given to Dr. Pierce's Common Sense Medical Adviser, of which over two million copies have been sold. Send 21 cents in one-cent stamps, for this 1000-page book in paper cover, or 31 stamps for the cloth-bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

What kind of a Daily Newspaper Do you want in Your Family?

You are very particular about the companions chosen by your children and you cannot afford to take less care in the choice of your daily newspaper, which exerts a silent but potent influence on all who read its columns regularly.

This political year you need a good daily paper. Quality rather than price should determine your choice. Better take no paper than one of low standard.
